

MYRiveR Yarra 08 Community Forum

Come and hear young peoples' vision for restoring the health of the Yarra River at a FREE, informative & inspiring community forum.

Secondary school students throughout the Yarra catchment participated in OzGREEN's MYRiveR Yarra program to assess the health of our city's great river, and create their own visions and action plans. They invite you to hear the results.

This is a great opportunity for:

- teachers, policy & education officers and community group members to find out how the students' plans for action and fresh ideas could complement existing efforts to care for the Yarra.
- anyone to learn more about the health of the Yarra catchment, and be inspired by young people taking action!

On the banks of the Yarra River

At

Yarra Yarra Rowing Club, Boathouse Drive, Melbourne

On

Tues 20th May, 3.30-5pm, Afternoon tea included

RSVP
